

Dolly Pattern Instructions

A quick and easy pattern for making your own dolly!

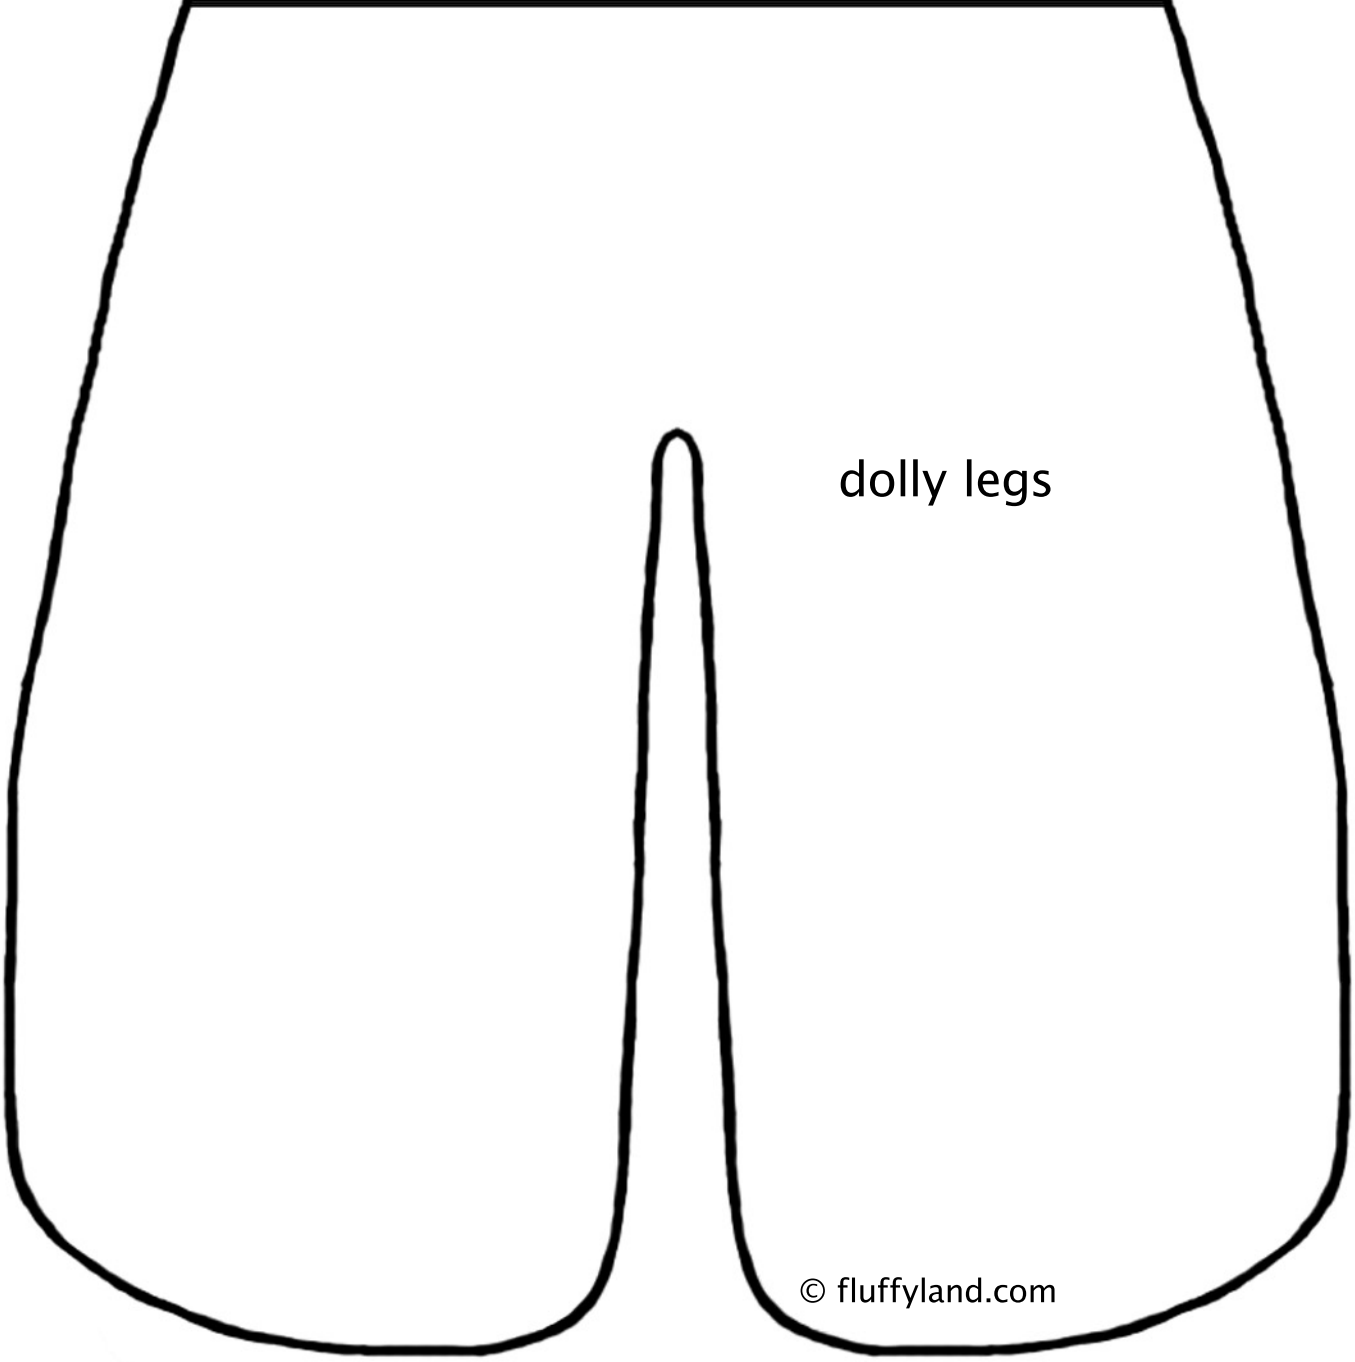

Simply cut out two of each pattern piece (body on the fold). If using fleece or felt for hair, stitch it on before sewing everything up.

When using contrasting fabrics, use fabrics with similar stretch for best results.

If you use a contrasting fabric for the torso, make sure to add a seam allowance of the head color so your dolly still has a neck!

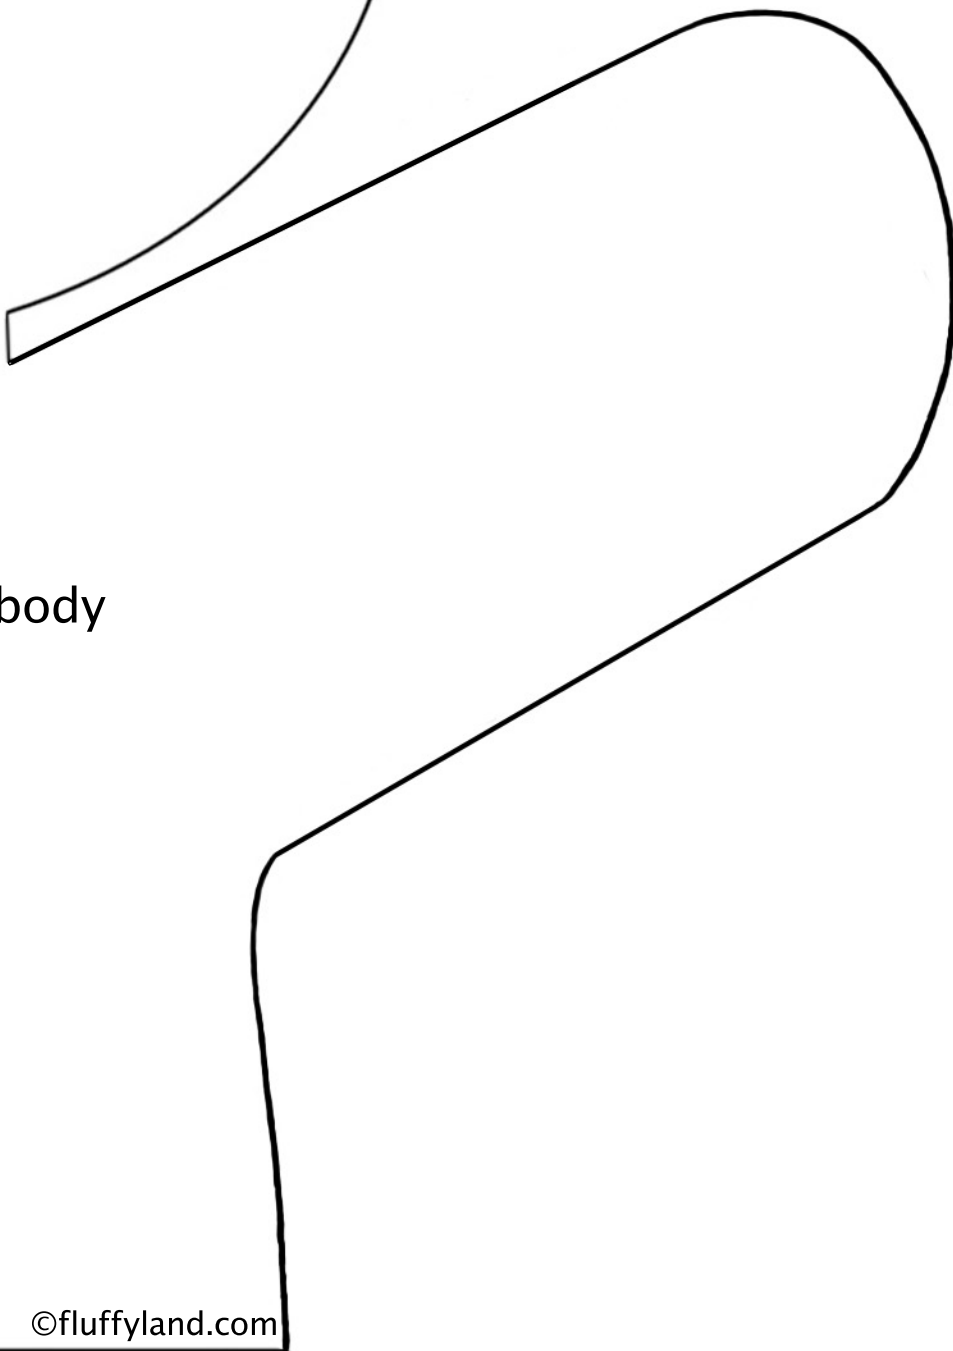

Thank you for downloading my pattern and have fun sewing!
